# My perfect school

The perfect school should encourage a student to say, "I go to school there" with a true sense of enthusiasm, and it should emphasize the value of education.

Do you think you attend the perfect school? If yes, you are really lucky. We would ask you to describe it, would you?

But there are a lot of students, who don't consider their school as perfect. I guess all of us have dreamed of that perfect school. Have you?

Here I will show you an example of few students and their perfect school. I invite you to do the same and tell us about your dream school.

## Lorenzo Comerlati

In a perfect School there should be books in the computer, beds and a very big Park with a football pitch and a pool.

## Matteo Brunelli

The perfect school for me is a school with a lot of place for sports (football, basket, volleyball etc) and a

very big park for the free time in the afternoon.

All my friends are in the class with me and the subject are more beautiful and interesting. I want to eat in the canteen all my favorite food (pizza, hamburger, carbonara etc). I want to sleep in the bedroom with my best friends and watch films together.

## Hannah Stott, aged 10

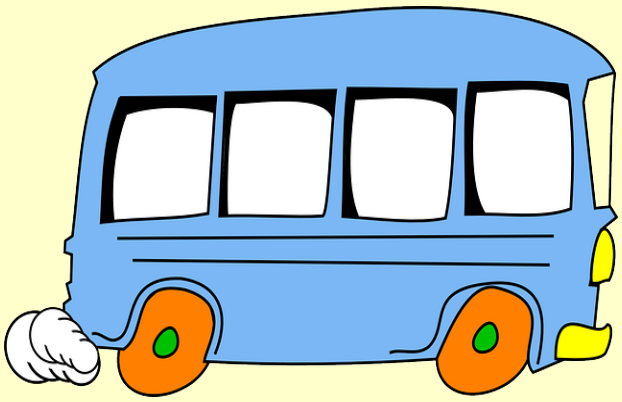

'When I was eight, my school put up a board on which pupils could pin up ideas. Hardly any of them

got done, not even the eco-friendly

ones.

My dream school isn't one that has loads of high-tech equipment. It is one that has students that enjoy learning and whose opinion will be considered seriously.'

**Olive Bradshaw, aged 10**

'At the start of the week you could fill in a form to choose what lessons you wanted. Kids should get at least an option on where to go on trips.

Also, they shouldn't have to wear school uniform if they don't want to. In after-school club there should be crisps and drinks and some fruit to keep you going.'

## The 5e2's Ideal School:

In my ideal school, there is a saloon, video games and a library. Instead of having normal chairs, we have armchairs with massage seats. The toilets are clean.

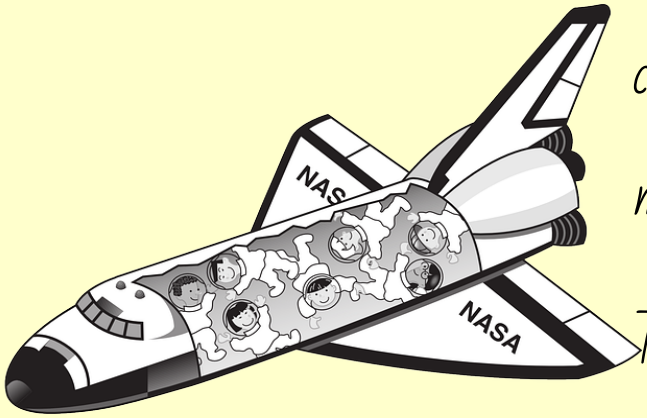

There are many classrooms, the teachers are cool and in the playground there is a basketball court, a football court and a gigantic swimming pool. Our music teacher is Stevie Wonder.

The students can have one classroom during the lunch break to do what they want, activities such as clubs for example.

We can use sport facilities and practice many activities such as Kung Fu. In my ideal school, the canteen is a kebab stand and it's free.

## The 5e3's Ideal School :

In my ideal school, there is a huge canteen with delicious and organic meals and a pretty courtyard.

There are shuttles to move in the corridors.

In the playgrounds, there are many sports facilities such as tennis courts and football courts. I can also ride a horse

during the Physical Education classes and there is an ice-rink in the playground. I can study when I want! There is great food with "gourmet" dishes, and we can eat sweets during the break. It is situated in in a castle with teachers just for me. In my perfect school, there is a science lab to conduct experiments. There is a uniform chosen by the students.

In the classrooms, there aren't chairs but armchairs with blankets in winter and refreshing sprays in the summer.

After school activities are offered like drama, writing, art, music, table tennis, badminton, reading, philosophy, cooking and photography.

We can have a rest during the lunch break.

Pupils can sleep over night at the school and it's free.

These are some awesome schools, right? So... What is your perfect school? Remember, imagination has no limits. Your dream school can be at space, can be school for magic or can be regular school but with some changes that has to be done. It is up to you. We are waiting for it. And who knows, if we are a lot, may be some day we can build it.
